

We have an exciting job opening starting on {{EnterDate}} for the position of

Business Analyst with Data Management

Full-time, permanent position

About quitt

There are over 75 million private workers around the world and they all deserve fair and correct employment. Often they are not employed correctly because proper registration, insurance and administration are time consuming and not very intuitive. quitt, our SaaS application, takes care of the correct employment of private workers for private individuals. Hiring with quitt is easy, digital and fair.

In [Switzerland](#), we have already legalized over 50,000 work relationships and paid out salaries over 400 million Swiss Francs. Having successfully expanded to [Germany](#) last year, with a team in Munich, we now plan to bring our vision to the United Kingdom in 2024.

Your role

You have a unique opportunity to join the core team from the beginning and launch a new service in UK. As one of the four key members, you will contribute to developing our UK specific payroll & administration service, key processes with all involved authorities and our marketing & communication strategy. You will have the incredible chance to build a new start-up, while at the same time enjoying full support from our 40-person team and management based in Zurich, Munich and Yerevan. Your workplace will be in central London.

Your tasks and responsibilities will include:

- Analyze, design and implement custom software solutions and features.
- Customize existing solutions based on client needs and requests.
- Configure existing solutions to ensure smooth system integration, enhanced functionalities, and user-friendly interfaces.
- Collaborate with the IT and Development team to offer technical solutions and resolve issues.
- Provide end-user training and support, demo new implementations.
- Document software processes and prepare progress reports.

What you need to succeed

- Bachelor's degree in either Information Technology, Computer Science, Business Administration, or Finance.
- A minimum of 1 year experience in relevant field.
- Good knowledge of SQL language.
- Excellent analytical and problem-solving abilities.
- Excellent collaboration and communication skills.

- Excellent organizational and time management skills.
- Fluency in English.

Why quitt?

Aside from our people, culture and mission, there are a variety of additional benefits that help make quitt a great place to work! Work with us and receive:

- High-impact work environment with short decision-making processes.
- A proven business-model with a high sense of purpose.
- Regular company and team events.
- Opportunity to buy shares (only one share class) with a 10% discount.
- Competitive compensation.
- Remote-friendly team structure – we offer a 50% remote, 50% in-office working philosophy.
